

As we experience a prolonged spell of hot weather and with heatwave conditions continuing this week according to the Met Office we have provided some useful information and advice on how people can look after themselves and the vulnerable during the hot weather.

Please can you disseminate the attached press release through your local network or post the information onto your website etc. <https://www.westsussex.gov.uk/news/level-3-heat-warning-issued-to-west-sussex-residents/>

The following links provide more detailed useful information

Supplies of A4 Posters, Leaflets and small cards

Please contact me if the Parish/Town Council wish a supply to distribute within their local communities.

Loss of Water:

- Residents: If individual residents find they are without water they should contact their Water Utilities Company (Southern Water, South East Water or Portsmouth Water) to report the issue.
- Parish/Town Council: If the Parish/Town Council become aware of a wider issue of properties/public buildings etc are without water please contact your local Emergency Planning Team on the appropriate details below.

These are only to be used by the Parish/Town Council as part of your Community Resilience/Emergency Plan
