

Essential survey works are required on the A24 Findon as part of Operation Watershed. These works will be carried out by a West Sussex County Council contractor, Drainline. Our contractor Landbuild, who are carrying out the Active Travel Fund shared cycleway/footway on A24 Findon Valley will be working collaboratively with Drainline to ensure the survey works progress in parallel with the cycle scheme works which are happening in the same area.

For the safety of both the public and workforce, temporary traffic signals will be in place on the A24 - from the junction with Nephcote up to the junction with the Quadrangle. **Due to unforeseen issues today's work couldn't progress as scheduled, resulting in the slight delay in the works. Please see the revised programme information below.**

Scheme Location	Date (from and to)	Timing of Temporary Traffic Lights
A24 Findon Valley. <i>From the junction with Nephcote up to the junction with the Quadrangle</i>	<b>Wednesday 30<sup>th</sup> November to Friday 2<sup>nd</sup> December 2022.</b>	Off Peak Hours: 09:30 – 14:30

Please note that these works are weather dependant, we will endeavour to inform you should there be significant changes to the programme.
